ABSTRACT

Ayurveda has its own heritage because of its depth of wealth of herbs. It has enormous herbs for one common disease. Selection of herbs for particular disease condition for particular person is the task for Practitioner. Acharay's made the search easy by grouping the herbs into *Gana's*, *Varga's*. As women is prone for more wear and tear phenomenon throughout her life. It's a need of an hour to critical review of *Nighantu's* for thorough knowledge of Herbs. Hence an attempt is made to review of drugs utility of *Haritakyadi Varga* of *Bhava Prakash Nighantu* with view of Prof. Chunekar in *Stree vividha avastas*. Some of herbs of *Haritakyadi varga* are very specifically mentioned for *Stree Roga* and in *Prasuta avasta* with specific action like *Garbhashaya Shodhaka*, *Artava Stambhaka* *Stanya Shodhaka* etc. The collection of data from *Bhava Prakash Nighantu* with analytical view of Prof. Chunekar is done. Discussion and conclusion will be done on the basis of Reviewed and analysed collected data.

Keywords: *Haritakyadi varga, Stanya shodhaka, Bhava Prakash, Prasuta*

INTRODUCTION

Jagatevam anoushadam all the universal drugs are useful in one or the other way^{1,2}. Bhavamishra has explained drugs in form of *Varga* which makes us for easy usage of herbs for clinical aspect. Since ancient days most of the herbs are used for *Stree* in the routine form as a food for the purpose of health maintenances. After review of *Haritakyadi varga* of *Bhava Prakasha Nighantu* of analytical view of Prof Chunekar, more number of medicine are mentioned for *Stree*

*vyadhi's*³. *Garbhini* and *Prasuta avasta* are such a love able phases of women life, where they are going to give new life. So, Physician should be very cautious while prescribing medicine to them.

Some of the drugs are explained as " *Garbhayshaya Shodhaka*, *Garbhashaya Sankochaka*, *Artava Pravar-taka*, *Artava Sthambaka*, *Stanya Shodaka*, *Stanya Vardhaka* etc". *Jeeraka*, *Krishna Jeeraka*, *Chandrasura*, *Methika* etc are some drugs specially

mentioned and routinely used for *Prasuta stree for Garbhayshaya Shodhanartha, stanya vrudhi*, and for nutrients supplementation.⁴

Present sendentary and fast moving life style more of adolescents depends on fast food, *Virudha ahara, Avyayam, Ativyayam* make them more prone to suffer with one or the other menstrual problems. We have rich heritage of medicinal plants. Intention of enhancing the drug list for practise a critical review of *Haritakyadi varga* of Bhava Prakash of Chunekar commentary is undertaken.

Methodology:

It is a review research article so,

1. The collection of data from *Bhava Prakash Nighantu* with analytical view of Prof. Chunekar.
2. Analysed the collected data from *Bhava Prakash Nighantu* with analytical view of Prof. Chunekar.
3. Critical reviewed the Analysed the collected data from *Bhava Prakash Nighantu* with analytical view of Prof. Chunekar.
4. Discussion and Conclusion will be done on the basis of Reviewed and analysed collected data.

Drugs with specific Quality:

1. Contraindicated in Garbhani: Haritaki¹, Ajamoda, Bhalataka
2. Garbhashya Sudhhikara: Jeeraka, Krishna Jeeraka, Kalounji,
3. Atyartava: Amlaki
4. Shweta Pradara: Triphala
5. Phiranga roga: Chopachini
6. Stana sotha and Andha kosha sotha: Parashika Yavani.
7. Yoni roga: Pashana Bheda, Manjishta
8. Rakta Vikara: Lodhra
9. Contra-indicated during Breast Feeding: Ahiphena

DISCUSSION

In *Haritakyadi varga* includes 98 numbers of drugs. Some herbs are concise in group for better understanding and easy to remember their properties. Like – *Triphala*, *Shadushana*, *Panchakola*, *Astavarga*, *Chaturbeeja*, *Jeeraka traya*, *Kshara dwaya*, *Kshara Traya* etc.

Initial 4 drugs have *Madhura Vipaka*,

Most of the herbs of this *Varga* are having *Katu Rasa* *Katu Vipaka*, *Tikshna Ushna*, *Laghu Guna* and *Deepaka*, *Ama Pachaka*, *Vata* and *Kaphahara*.

Astavarga herbs are endangered species. They all have *Rasayana* property. Their substitutes explained by Chunekarji.

1. Contraindicated in *Garbhani*: *Haritaki*: because of its *Ruksha Guna*, *Ushna Vr*, *K-Sonithsthapanam*, & *Anulomaka*. Clinical trial showed Haemostatic activity, so it may be contraindicated. *Bhalataka* and *Ajamoda*: *Ushna Vr Teekshna Guna* shows *Garbhashya Uttejaka*. *Bhalataka* had abortifcent action and it has toxic effect hence they may be contraindicated.⁷
2. *Garbhashya Sudhhikara*: *Jeeraka*, *Krishna Jeeraka*, *Kalounji* all these 3 herbs have *Katu R*, *Ushna Vr*, *Katu Vp* *Garbhashya Sodhana* because of their volatile oils (*Cymene*, *Carvone*, *Thymol*)
3. *Atyartava- Amlaki* bcoz of its *Sheeta -Vr*, *Vp-Madhura*, *K-Shonitasthapana*, *Stambhana*. Contains excess of amount of tannins which shows Haemostatic action.
4. *Yoni roga*: *Pashana Bheda* being *Kashya*, *Tikta rasa* and *Sheeta Virya* helpful in Menorrhagia conditions. *Manjishta* is having *Teekshna* property, *Ushna Vr Artavajnana*, and *Garbhashya Uttejaka* trial showed haemostatic action⁷.
5. *Stana sotha and Andha kosha sotha*: *Parashika Yavani*: *Shothahara* Anti-inflammatory action

6. Contra-indicated during Breast Feeding:
Ahiphena: it contains Morphine, codeine, narcotine toxic principles which have *Vyavayi* guna hence it may be contra indicated during Breast Feeding⁶.
7. *Jeeraka, Krishna Jeeraka, Dhanyak, Hingu, Shatapushpa, Ajamoda, Yavani* these herbs belong to Apiacece Family of *Haritakyadi Varga* has their specific effect on uterus because of their essential oils volatile oil & sitosterol, estrodial chemical composition.
8. Most of the herbs in this group contain beta-sitosterol. A plant food-based diet modifies the serum beta-sitosterol concentration in hyperandrogenic postmenopausal women⁸. This finding indicates that beta-sitosterol can be used as a biomarker of exposure in observational studies or as a compliance indicator in dietary intervention studies of cancer prevention. beta-Sitosterol induces apoptosis and activates key caspases in MDA-MB-231 human breast cancer cells⁹.

CONCLUSION

Haritakyadi varga includes most commonly available herbs which will improve area of practical utility in routine.

Some Apiaceace group of drugs have uterine tonic effect because of their essential oils within it.

Review of *Sastras* and updating is the need of an hour to enhance knowledge

Knowing the herbs will give option for more researches in Ayurvedic field. Further study of all *Vargas* can be carried by scholars to know their effect in *Stree*. Literary works and clinical trials can be done for documenting the herbs mentioned in *Bhavaprakash Nighantu* for the purpose of women health.
